## What is Netstore's role in the Hedra Consortium?

Netstore is the Hedra Consortium's managed and hosting services partner. It has the expertise to deliver the Consortium's solutions and services, enabling quick deployment with a focus on rapid realisation of customer benefits.

Netstore specialise in the hosting and management of corporate services applications such as finance, HR and payroll as well as citizen-facing applications based on CRM and EDRM technologies.

## About Netstore

Founded in 1996, Netstore is a leading provider of IT managed services to public bodies that choose a selective approach to their IT outsourcing and shared services decisions.

Over 60% of Netstore's business comes from the public sector, helping organisations realise real savings through shared and managed service delivery of their IT solutions.
