What is Valtech's role in the Hedra Consortium?

Within the Consortium, Valtech is a key partner for specialist application development and systems integration. It specialises in combining technological insight, management understanding and domain knowledge for customer's advanced technologies.

Drawing on the wider capabilities of the Consortium, Valtech can undertake comprehensive and complex integration maximising client's legacy systems, as well as developing and implementing solutions to meet bespoke requirements.

About Valtech

Valtech is a global technology services and consulting company. It enables government organisations to run operations more securely, cost-effectively and efficiently through technical consulting and systems integration expertise. Delivering smart, innovative and Agile solutions, Valtech helps its public sector clients deliver citizen-centric services.
