THE GREEN AGENDA (MAKING WHAT WE DO MORE SUSTAINABLE)

ROBUST FINANCIAL SYSTEMS

Delivery of political agenda, enabling political choice.

Informed decisions, ability to interpret and respond locally to changes in central government policy and procedures – learn when to say no. Empower politicians to make decisions and challenge priorities.

Informed citizens, trust, satisfaction, BVPI improvements, reduced pressure to reduce council tax. Lower council tax and ability to be re-elected.

Reduce carbon emissions – towards carbon neutral. Place making and localism, community leadership.

Identify areas of high cost, waste, duplication and fraud. Also identify where citizen demand calls for new and enhanced service provision. Allow government to ensure that taxpayers' money is appropriated to the desired communities.

Experienced provider of solutions that enable cross authority cost reduction measures including process duplication, waste, delay points/inhibitors and sub-optimal supply chain.

Experience in delivering the early phases of true cross government agency collaboration such as Single Non Emergency Number. Supporting government to treat citizen as an individual through aggregated citizen accounts, and smarter working practices.

Deliver information management expertise and best practices and to perform organisation wide review to build roadmap to deliver operational excellence. Can deliver services at lowest cost of ownership.

Integrate a whole systems approach to the carbon emissions. We can bring together a platform to measure current and projected carbon footprint and establish a strategy and technical solution to drive the emissions down.

Combine world class information management solutions with best of breed business process designs focused on eradicating inefficiencies.
